Profile

Experienced front-end programmer with a degree in Computer Science and a Certificate in Web Frontend Development. Proficient in HTML5, CSS3, Bootstrap, JQuery, JavaScript, TypeScript, Sass, and React.js. Skilled in developing complex web applications and integrating real-time data and APIs. Strong portfolio of projects, including a Resume Builder, a Chat App, a Weather System, a Games Reviews website, and a Recipes website. Links to LinkedIn, GitHub, and Portfolio available upon request.

Skills

HTML5	CSS3
Bootstrap	JavaScript ES6
JQuery	Sass (Syntactically Awesome Style Sheets)
TypeScript	React.JS
C#	

Education

Bachelor degree in Computer Science, El-Shorouk Academy	2018 – 2022 Cairo, Egypt
Programming Fundamentals Diploma (Web Frontend Development), Route Academy	11/2022 – 03/2023 Cairo, Egypt

Professional Experience

Intern, SYNC INTERN'S	04/2023 – 05/2023
Used React.js to create Weather and Messenger Apps as an online intern, showcasing front-end skills and gaining project management and collaboration experience.	

Projects

WEATHER SYSTEM

- Developed a real-time weather system alone using HTML, CSS, Bootstrap, JS, React.js, Fake API, Axios, and React-router-dom.
- Successfully built a user-friendly weather system that accurately displayed current and future weather data, gaining front-end development and UI design experience.

RESUME BUILDER

- Developed a CV application using React, react-to-print, react-feather, and react-dom.
- Gained experience in UI design, development, and React, resulting in a functional and user-friendly CV application.

RECIPES WEBSITE

- Created a dish display website, categorized by countries, categories, and ingredients, utilizing a real API and regex for contact us.
- Gained experience working with API integration and regex.

CHAT APP

- Created a live chat app with features such as messaging, profile picture changes, and conversation adding, using Firebase for registration, login, and data storage, as well as React-Router-Dom and React.
- Gained experience in working with Firebase for authentication and data storage.
- Successfully built a functional Live chat application with additional features to enhance the user experience.

GRADUATION PROJECT(PARROTYO) Mobile App

- As the team leader, I was responsible for task delegation, and contributed to both the front-end and back-end programming of the mobile application.
- My role included designing the visual appearance of the program and modifying the AI model used in the application, which utilized technologies such as CNN and MFCC.
- Together, we successfully created a fully functional mobile application that utilized AI technologies to convert audio to written text.
